

Me² is new in 2012!

**Ready to create big savings
on your energy bills?**

**Want cash back for your
home energy improvements?**

Me² can help!
Milwaukee Energy Efficiency

The program is still easy—sign up today and an energy advocate will contact you shortly to schedule a per-assessment for your home. Your advocate will set you on the right path to savings by helping you determine if your home is a good candidate for upgrades that could save you 15% or more on your energy bills.*

If so, now you'll have access to Me² Consultants and Contractors, with the guidance of your Energy Advocate, to make necessary home upgrades like adding insulation, replacing heating equipment or air sealing your home.

**Once your upgrades are completed and verified, the savings
—and the rebates—begin!**

If your upgrades save:	You could earn:
15-24% of your energy use	\$1,000 cash rebate!
25-34% of your energy use	\$1,500 cash rebate!
35% or more of your energy use	\$2,000 cash rebate!

* For homeowners, if your pre-assessment estimates come in below the 15% savings requirement, your Energy Advocate will help you find a Focus on Energy Program that's right for your needs.

Schedule your appointment today to see how your savings can pay off!
